## MEMORANDUM

To : All Laboratory Users  
From : Clinical Chemistry, Department of Laboratory Medicine  
Date : 22<sup>nd</sup> September 2020  
Re : **Test Panel Update: Myositis Panel**

---

Please be informed that with effect from 15 October 2020, Myositis Panel referred to TTSH Clinical Immunology laboratory will be switching to the new 18 Antigen Panel (Euroimmun) for the qualitative determination of antibodies to the following antigens:

Mi-2 alpha, Mi-2 beta, TIF1 g, MDA5, NXP2, SAE1, Ku, PM-Scl100, PM-Scl75, Jo-1, SRP, PL-7,

PL-12, EJ, OJ, Ro-52, HMGCR and cN1A

Test will be performed every Monday and Thursday. The reference value for each antibody is 'negative'.

Both Anti-HMGCR and Anti-cN1A will remain orderable as individual tests for another year.

Yours sincerely

Dr Sharon Saw  
Principal Scientific Officer  
Department of Laboratory Medicine
